COACHING

The coaching model allows teachers to work one-on-one, in small groups, by department, by grade level, or with the entire district to identify areas of need and work towards sustainable positive outcomes. Coaches aid in crafting goals, implementing action plans and measuring relevant outcomes while providing resources, tools, feedback and techniques to cultivate reflective practice. If your district is implementing new curriculum, goals, or struggling to meet students' diverse needs, coaching is a great way to empower teachers to try new methods.

CUSTOM SESSIONS
