

Artist Trading Cards

Artist M. Vänçi Stirnemann began creating mini art pieces to trade with others in 1997. The artist creates an original work, then signs and dates the back of the piece. Each card is then traded for another artist's work. Artists can use a variety of media/techniques as long as their work is 2.5" x 3.5".

Use the templates below to create your own Artist Trading Card. Cut the card out on the solid lines, then sign and date each card on the back. Trade them with other artists participating in the collaboration.
