

THE CURRICULUM DEVELOPMENT PROCESS

UNIT PLANNING UMBRELLA

NOTE: I made up the word “stractivity” to avoid the use of “activity” alone because an “activity” might be fun or interesting but not necessarily designed to address learning of specific concepts or skills. I avoid the term, “strategy” because it sounds too much like the military; too directive and not necessarily engaging.

I combine the two to suggest an engaging, investigative activity that is used strategically in light of learning goals and objectives.
