

Correlations to the Texas Essential Knowledge and Skills (TEKS): Student Material

Subject	Chapter 117. Texas Essential Knowledge and Skills for Fine Arts
Subchapter	Subchapter F. High School, Adopted 2013
Course	§117.302. Art, Level I (One Credit), Adopted 2013.
Publisher	Davis Publications, Inc.
Program Title	Communicating Through Graphic Design
Program ISBN	978-1-61528-296-8

(a) **General requirements.** Students may fulfill fine arts and elective requirements for graduation by successfully completing one or more of the following art courses: Art I, Art Appreciation, and Art and Media Communications I (one credit per course).

(b) **Introduction.**

(1) The fine arts incorporate the study of dance, music, theatre, and the visual arts to offer unique experiences and empower students to explore realities, relationships, and ideas. These disciplines engage and motivate all students through active learning, critical thinking, and innovative problem solving. The fine arts develop cognitive functioning and increase student academic achievement, higher-order thinking, communication, and collaboration skills, making the fine arts applicable to college readiness, career opportunities, workplace environments, social skills, and everyday life. Students develop aesthetic and cultural awareness through exploration, leading to creative expression. Creativity, encouraged through the study of the fine arts, is essential to nurture and develop the whole child.

(2) Four basic strands—observation and perception; creative expression; historical and cultural heritage; and critical evaluation and response—provide broad, unifying structures for organizing the knowledge and skills students are expected to acquire. Each strand is of equal value and may be presented in any order throughout the year. Students rely on personal observations and perceptions, which are developed through increasing visual literacy and sensitivity to surroundings, communities, memories, imaginings, and life experiences as sources for thinking about, planning, and creating original artworks. Students communicate their thoughts and ideas with innovation and creativity. Through art, students challenge their imaginings, foster critical thinking, collaborate with others, and build reflective skills. While exercising meaningful problem-solving skills, students develop the lifelong ability to make informed judgments.

(3) Statements that contain the word "including" reference content that must be mastered, while those containing the phrase "such as" are intended as possible illustrative examples.

(c) **Knowledge and skills.**

(1) Foundations: observation and perception. The student develops and expands visual literacy skills using critical thinking, imagination, and the senses to observe and explore the world by learning about, understanding, and applying the elements of art, principles of design, and expressive qualities. The student uses what the student sees, knows, and has experienced as sources for examining, understanding, and creating original artwork. The student is expected to:	(A) consider concepts and ideas from direct observation, original sources, experiences, and imagination for original artwork	(i) consider concepts from direct observation for original artworks	Instruction	978-1-61528-296-8	16	Try It
			Activity	978-1-61528-296-8	46	Try It
